Where: Holiday Inn Express, Strathclyde Park, Hamilton Road, Bellshill, ML1 3RB

Topics Covered:

Respiratory Masterclass

Everything Ears

Throat conditions, Oral and Lymph exam

Dermatology

History Taking

Consultation Skills

Our Clinical Skills Training Day provides hands-on, comprehensive training in the assessment and management of common clinical conditions encountered in everyday community pharmacy prescribing practice. Designed to support your development as an independent prescriber, the course focuses on clinical examination techniques, common presentations, diagnostic reasoning, and evidence-based management.

Whether you're looking for a valuable refresher following your NES Clinical Skills training or were unable to attend the NES programme, this course offers an excellent opportunity to build confidence and competence in patient assessment. We explore a range of common conditions in greater depth. Learning is reinforced through interactive case studies and practical examination sessions, ensuring you can apply your knowledge directly to clinical practice.

Full Day Course £149p.p.
